

## SUMMARY

Full Stack Developer with 1+ year of experience building scalable, user-centric web applications. Proficient in developing both frontend and backend systems using React, NodeJs, and MySQL. Skilled in problem-solving, collaborating with cross-functional teams, and communicating technical ideas effectively. Passionate about creating impactful solutions that align with user needs and drive business outcomes.

## EXPERIENCE

- **Scubeelate Technologies** July 2024 - Present  
*Software Engineer* Bengaluru, India
  - Developed reusable React components to ensure consistency and reduce duplication across large-scale applications.
  - and implemented RESTful microservices using Node.js and AdonisJs, ensuring scalability and maintainability.
  - Improved data handling and API communication with React Query, enabling efficient caching and synchronization.
  - Automated form handling and validation with React Hook Form, reducing manual errors and improving reliability.
  - Wrote unit tests for frontend React components (Jest + React Testing Library) to improve code quality and prevent regressions.
  - Actively participated in Agile/Scrum practices, including code reviews, sprint planning, and CI/CD pipelines (Jenkins).

## EDUCATION

- **Motilal Nehru National Institute of Technology (NIT)** 2020 - 2024  
*Bachelor of Technology in Electronics and Communication Engineering* Allahabad, India
  - GPA: 8.25/10
- **Narayana Junior College** 2018 - 2020  
*Broad of Intermediate Education* Nellore, Andhra Pradesh
  - Percentage: 97.9%

## SKILLS

- **Core CS Concepts:** Data Structures and Algorithms, Object Oriented Programming Language, DBMS
- **Programming Languages:** C++, JavaScript, Java
- **Development Technologies and Frameworks:** HTML, CSS, TailwindCSS, React JS, Redux, Zustand, RESTful Apis, NodeJs, AdonisJs
- **Database Management:** MySQL
- **Tools & Version Control:** Git, Postman
- **Cloud:** AWS (basics)
- **Soft Skills:** Problem Solving, Team Work, Continuous Learning, Adaptability, Good Communication

## PROJECTS

- **LMNT - Gym Management Application** | [Link](#)  
*TECH STACK: React.js, TypeScript, NodeJs, AdonisJs REST APIs, Zustand, MySQL, AWS*
  - Built a full-stack web application to manage trainers, memberships, sessions, and product sales.
  - Designed and integrated RESTful APIs with AdonisJs for modular and maintainable backend services.
  - Implemented JWT authentication & role-based access control for admin, trainer, and customer modules.
  - Optimized queries and caching strategies to improve API performance under high traffic loads.
  - Added unit tests for utility functions and components to ensure robustness of critical features.
- **Zain Care** | [Website](#) | [Admin Panel](#)  
*TECH STACK: React, JavaScript, Tailwind CSS, NodeJs, AdonisJs, MySQL*
  - Developed a full-stack platform to manage Leads, Orders, Discounts, Support, and Customer data.
  - Enhanced scalability by modularizing backend services and optimizing MySQL queries.
  - Designed a dynamic admin dashboard with real-time notifications (WebSockets) for faster support resolution.
  - Implemented component-level unit tests for React frontend to ensure smooth functionality across modules.
